SUMMARY

From the moment I produced "Hello World" in the console of my first application, I knew I was hooked into the world of software development. But software development has never been "just a job" for me; it's offered an engaging challenge to continually learn and improve my skills in creating high-quality software. What started with a simple "Hello World" has become a full-fledged passion that only gets more exciting as the years go by.

EXPERIENCE / PROJECTS

Employee Directory API | Website, GitHub   April 2021
- Created a directory that displays information of employees' contact information and picture and presents additional information in a modal window once an employee card is clicked.
- Utilized a public API to fetch a JSON object to parse employee data using vanilla JavaScript.

Game Show App | Website, GitHub   March 2021
- A browser version of "Wheel of Success", a word guessing game where players click letters from an onscreen keyboard to guess a random phrase.
- Demonstrates mastery of DOM traversal and DOM manipulation using parent, child and sibling nodes.

Random Quote Generator | Website, GitHub   May 2021
- An app featuring random quotes with different tags. A new quote can be generated by clicking a button or will automatically display on its own on an interval that can be disabled.
- Developed with JavaScript fundamentals and data structures such as looping through object arrays.

Student Web Dashboard | Website, GitHub   April 2021
- A mobile-first student dashboard mimicking what a student would use to navigate their profile on their school website.
- Optimized with an auto-complete feature and local storage to save preferred settings.
- Designed with CSS grid, complete with JavaScript charts and replaced raster images with scalable vector graphics (SVG).

EDUCATION

Team Treehouse | Full Stack JavaScript Techdegree   *Expected* November 2021
- Curriculum: JavaScript, React, Node.js, Express, SQL & REST API

Team Treehouse | Front End Web Development Techdegree   May 2021
- Curriculum: HTML, CSS, SCSS / Sass, JavaScript

University of Florida | Bachelor of Science in Public Relations   August 2018
- Honors: *summa cum laude*

SKILLS
